

TECH. DATA SHEET

VF1Vertical Flange Clip

Date	28/06/12
Reference	TDS03069

Working Load Limit (WLL)

Violating Load Limit (VVLL)	
VF1 Vertical Flange Clip	
Material	Pressed Steel
Corrosion Protection	Zinc Plated
Head Style	Purlin Hook
Fixing Method	In Place
Setting Method	Impact
Anchoring Method	Gravity/Clamping
Hole Diameters	3mm & 6mm
Anchor Length	42mm
Purlin Gauges	1.6mm - 2.5mm
Substrates	Steel "C" Section Purlins
Working Load Limit	
Purlin Gauges/Flange Thickness (mm)	Tension (kN)
2.0	0.67

NOTE:

- 1. Vertical flange clips are designed for use with steel "C" Section purlins.
- 2. Vertical flange clips are recommended for use with purlins having a return lip angle of 90° only.
- 3. Vertical flange clips are intended for flanges of 1.6 mm to 2.5 mm thickness.
- 4. Vertical flange clips are not suitable for suspending ceilings from the purlins unless the purlins have been designed for this purpose.
- 5. The Working Load listed above is the maximum static working load.
