Done & Dustless

R3™ Max Dustless Drilling system

Speed! Reliability! Safety!

The Ramset™ Dust Extraction system removes the dust at the point of origin for faster drilling & anchor installation, improved chemical anchor bond and unsurpassed dust suppression.

- Reduced health risks through the removal of airborne dust
- Safe, secure chemical anchoring due to effective dust removal
- Improved worksite productivity due to no hole cleaning
- Faster drilling speeds through reduced dust friction
- Extended drill bit life from the robust Tri-Cutter & Y-Cutter profile design
- No jamming when hitting rebar
- Universal and flexible application with all SDS-Max Hammers and professional work site vacuum cleaners

Part No.	Type	Size (mm)	Hole Depth (mm)	Drill Length (mm)
DDEM14400	U3Max	14	400	600
DDEM16400	U3Max	16	400	600
DDEM18400	R3Max	18	400	600
DDEM20400	R3Max	20	400	600
DDEM22400	R3Max	22	400	600
DDEM25400	R3Max	25	400	600
DDEM28400	R3Max	28	400	600
DDEM30400	R3Max	30	400	600
DDEM32400	R3Max	32	400	600
DDEM35400	R3Max	35	400	600

AC1630P – 30 Litre Wet / Dry Vacuum Cleaner
 Minimum Vac specifications
 Min Airflow: 40 l/sec
 Min Pressure: 230mbar

Recommended for installations using Ramset ChemSet™, Reo502™, StructaSet™ 401 & Epcon™ C8 chemical anchoring products.
