

Description

A lightweight and easy to handle rig that is capable of very accurate coring from 0° to 90°. The trolley system is fitted with rollers to ensure smooth even work in the worst conditions.

Specification

Height	880mm
Length	340mm
Width	250mm
Weight	12Kg
Max Drill Depth	850mm
Max Core Diameter	200mm
Operational Tilt	0 - 90°
Motor Mounting	60mm connection neck mount
Suitable for Motors	RM160 & RM250

Diamond Rig TRIx160

Part No.	Description	Order Qty
TRIX160	Rig to suit RM160 motor	1
Accessories		
620827	Vacuum Pump	1
622220	Quick Release Connector Bolts	1
624025	Vacuum Set	1
624019	Small Water Collector	1
624020	Membranes For Water Collector	1
172710	Portable Water Supply Unit	1
622200	Sharpening Plate	1

Features & Benefits

- Robust rig that enables more stable and controlled drilling
- Integrated vacuum plate
- Increased life of core bits
- Reduces drilling vibration
